Subject Optimist Park letter for Union County

John/Ken -

I modified the attached letter to Union County regarding the Optimist Park floodway violation. Following a discussion with John Gerber and Amy Helms, I removed the wording about a CLOMR. Union County requested comments on whether the flood study meets the requirements for a No-Rise certification, so I am limiting my remarks to that question.

I also changed the date that the LIDAR data was collected from winter 2001-2002 to winter 2002-2003 based on the response to a request for verification I sent to Suzy Germain of Dewberry.

I'll be on the road all day Tuesday and Wednesday, but I'd like to get the letter out to Amy Helms on Thursday at the latest. Please let me know if needs any further changes to content or format before it can be signed.
